CONSTANTINOPLE (April 1908) A dastardly Austrian plot has been inserted. Turkish sources claim that in what was described as a "Glorious Victory" Turkish Naval forces sunk or disabled several more garbage scows containing provisions for the Austrian aggressors along with an Austrian drilling rig bent on mischief. The Austrian apparently intended to let all the water out of the Black sea through a hole drilled through the bottom.

CONSTANTINOPLE (31 April, 1908); The smell of dead Austrians in Bulgaria is causing a serious air-pollution problem in this city. ~~and~~ Some survivors without their normal diet of garbage the invaders are dying ~~in~~ ⁱⁿ lines.

BERLIN.-The high command in Germany has fired all of its Intelligence Agents today. The reason given--that they did not lend or supply aid and help as to who was allied with whom. The High Command would be very happy if somebody would shed some light on this matter. (It is terrible to be left in the dark) There have been reports that the Austrian Government has sent two divisions of armed troops up to the German border. These armies are being watched and will not be molested if the Commander of the Austrian forces would clarify his intentions. In other words, GET THE HELL OUT OF THERE.

PARIS (April 8, 1903); After a top secret meeting of the French Military command here, President Robaire le Formidable announced the basic French ambitions for this decade. He pledged that the French and the English dogs will continue to try and save the people of Africa from this century. No mentioned assistance from other Nations would be forth coming. But, these powers were not named. The latest attack by French forces on the English Channel to support the League of Mini-States forces on the Cliffs of Dover and the Channel Islands. It is believed that the English forces were attacked were obliterated and forced into wild retreat. In the final words of his speech, he declared "nos amis nous obliterons les anglais qui sont la plus horribles peuples de terre".

SAN FRANCISCO (April 9, 1903); In response to the inspiring speech by the French President, the league of Mini-States has unanimously voted to Continue action against the Aggressor-Pig-English, after the regrettable loss of Captain Peery in the Battle of Dover, a new commander of Mini-State forces was named today. The great Admiral Conrad Anto Ludwig Anto Kolf Josef Wolfgang Freisner Von Metzkedorffer is now on his way from Gaul to the anchorage of the fleet.

CONSTANTINOPLE:-The Government of Turkey was astounded at the ludicrous communique we recently received from the pompous Slav grunting in the remnants of the Kremlin. We were also astounded by his stupidity for as one knows Armenians don't have women much less Children. And secondly no self respecting Turk would get near Armenia. So Czar Black, how could we or would want to, make those miscreants off spring of the Russian orgies to go on forced marches? Therefore we will gladly give you Armenia and many of its dens of sickness, and perversions destroy you. However as to your other statements we doubt that your peons could edit march to GUM much less leave the borders of Mother Russia. Put that in your Boreht and eat it you misinformed Latvian.
